

State Proficiency Results

State results for the Iowa Statewide Assessment of Student Progress (ISASP) are provided in this bulletin. ISASP is a standards-based assessment designed to provide information to schools and families on how students are performing on the Iowa Academic Standards. Performance level descriptors specify the level of performance on a test that is required for a student to be classified into a given performance level. ISASP performance is reported as defined by the state of Iowa.

	Performance Level Descriptors
Advanced	Students performing at the Advanced level demonstrate thorough competency over the knowledge, skills, and abilities that meet the requirements for their grade level associated with academic readiness for college and career in the subject area.
Proficient	Students performing at the Proficient level demonstrate adequate competency over the knowledge, skills, and abilities that meet the requirements for their grade level associated with academic readiness for college and career in the subject area.
Not-yet-Proficient	Students performing at the Not-yet-Proficient level have not yet demonstrated the knowledge and skills to be classified as Proficient.

The results include all students that completed a secure administration of the ISASP during the spring of 2025. Results for the 2024 administration are also provided. The tables provide the percent of students that were classified into each of three proficiency levels based on their test performance.

ISASP Test	Grades	State Trends
English Language Arts (Reading and Language/Writing)	3-11	The percent of students that were proficient or advanced in ELA increased between 2024 and 2025 for students in grades 3, 4, 8, 9, and 10.
Mathematics	3-11	The percent of students that were proficient or advanced in Mathematics increased between 2024 and 2025 for students in grades 4, 6, 7, 8, 9, and 10.
Science	5, 8, 10	Proficiency rates increased in Science between 2024 and 2025 in all three grades.

English Language Arts Results ¹
