

## Average Scale Scores

State results for the Iowa Statewide Assessment of Student Progress (ISASP) are provided in this bulletin. ISASP is a standards-based assessment designed to provide information to schools and families on how students are performing on the Iowa Core Academic Standards.

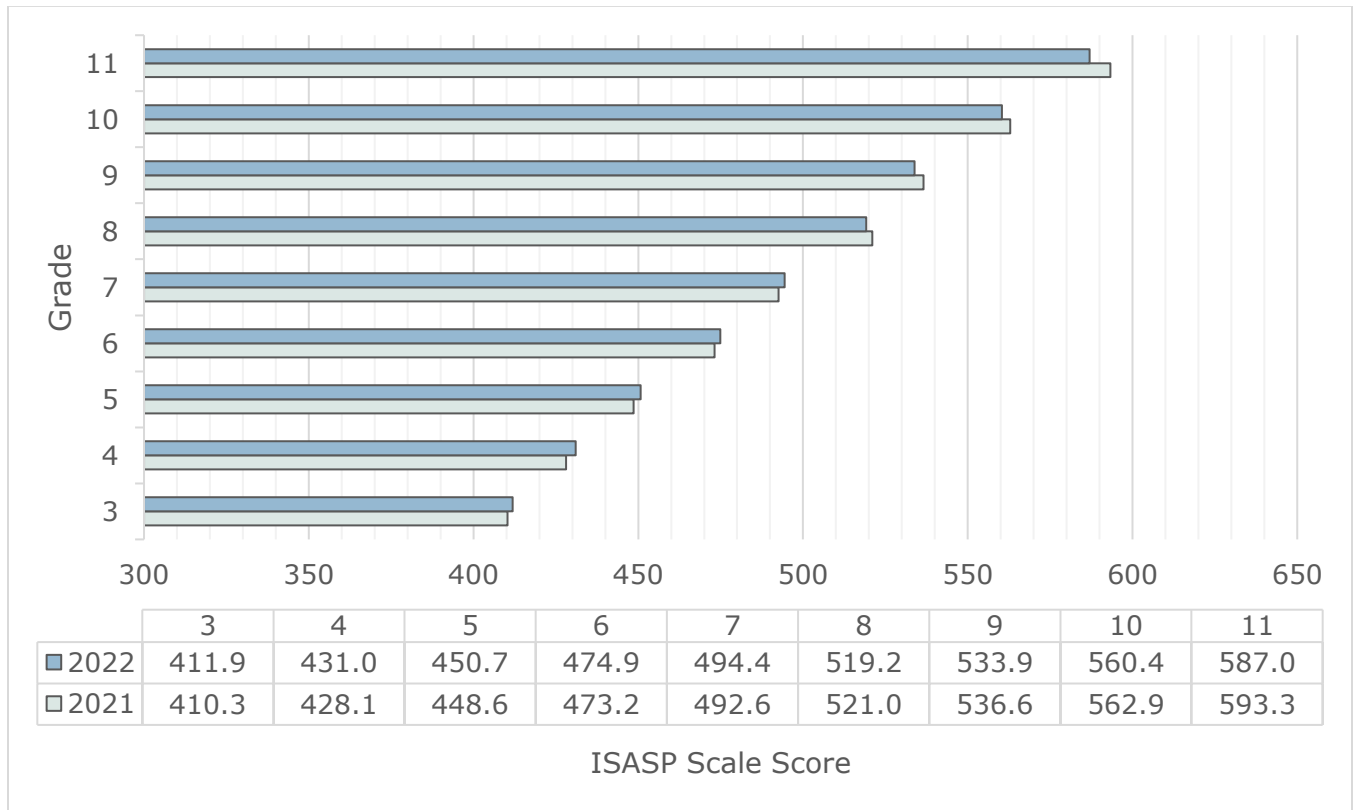

The performance of all public and accredited private schools in the state of Iowa in 2021 and 2022 is described in Figures 1 to 3 using the average scale score metric. The average ISASP scale scores in English Language Arts (ELA), Mathematics and Science reflect changes in achievement over this two-year period.

In ELA, there was a positive increase in the averages for grades 3 and 7. Other grades (4, 5, 6 and 8) resulted in averages similar to 2021 with some variation from grade-to-grade. In Mathematics, grades 3 to 7 showed an increase in grade-level averages while grades 8 to 11 showed a consistent pattern of decreasing grade-level averages.
