Iowa Statewide Assessment of Student Progress

Iowa Percentile Ranks for 2025

The Iowa Statewide Assessment of Student Progress (ISASP) measures student achievement and understanding of the Iowa Academic Standards in English Language Arts (ELA), Mathematics, and Science. Indicators of student proficiency and growth from grade-to-grade are provided. ISASP assesses English Language Arts and Mathematics for students in grades 3–11 and Science in grades 5, 8, and 10. The assessments, offered in both paper-and-pencil and computer-based formats during the last quarter of the academic year, include multiple-choice and technology-enhanced items, constructed response items, and open-ended essay questions aligned to the Iowa Academic Standards.

Understanding how students change and grow over time is extremely important as teachers and schools design education programs tied to standards in English Language Arts, Mathematics, and Science. Student achievement and growth can be characterized in a variety of ways, including proficiency, growth scores, and status relative to a goal such as college readiness or to a similar group of students. Three different types of metrics are available to help interpret ISASP results. A *proficiency-based reference* provides students and educators with descriptions and indicators of levels of proficiency as determined by the state of Iowa with designations of Not-Yet-Proficient, Proficient, and Advanced. Proficiency-based scores are criterion-referenced and reflect the level of achievement compared to the Iowa Academic Standards. A *growth reference* provides a metric for examining the change between two or more administrations of an assessment such as the difference between ISASP Scale Scores from one year to the next. A *normative-based reference* is provided through the state of Iowa percentile ranks that are available after each administration and specific to the particular year of the assessment program.

The Iowa Statewide Assessment of Student Progress (ISASP) was introduced in the spring of 2019, followed by its second administration in the spring of 2021. Since then, it has been consistently administered every spring on an annual basis. In this document, you will find the Iowa Percentile Ranks (IPRs) for the year 2025. Grade-specific percentile ranks were determined using results from the 2023, 2024, and 2025 administrations of the assessment. Including multiple years of data reduces potential cohort effects in the percentile ranks. This document is intended to complement interpretative information from proficiency-based and growth references. Similar information for previous administrations can be found at: <https://iowa.pearsonaccess.com/reporting-resources/>.

Using the Results

These conversion tables can be used by educators to find the percentile rank associated with Scale Scores on the ISASP assessments. The conversion tables are organized by grade, and each grade-level table includes columns containing the IPR of each ISASP Scale Score. The Scale Score to Percentile Rank conversions were obtained directly from the statewide distributions of ISASP Scale Scores from the last three administrations. In each test area and grade, these tables were developed from the final scoring file created for the purpose of reporting scores to Iowa schools. To use the tables, locate the grade-level of the student. Then find the student's ISASP Scale Score in the column labeled Scale Score. The Scale Scores are ordered from high to low in each grade.

It is important to recognize that the ISASP was developed to align with the Iowa Academic Standards and provide standards-based information for students and their families, for Iowa schools and the Iowa Department of Education's School Performance Profiles. The Iowa Percentile Ranks presented in this document do not play a direct role in any statewide accountability use of assessment results. They are intended to support other administrative uses of ISASP scores in Iowa schools.
